

## Drum Trolley for 1 Drum - BT230

Backed by our 3 year guarantee.

DIBt Approved: Z-40.22-398. Blue version only.

This mobile dispensing trolley has a full size spill containment sump made from medium density polyethylene, this ensures a lightweight operation with the added benefit of excellent chemical resistance. This unique design means it can be operated by one person even when it has a full 205ltr drum on board.

Once loaded the trolley can be pushed from the back to reduce the risk of operator strain.
